

AirTrack DP-1/IP-1 USB Installation Instructions

If the PC is having trouble detecting the printer via USB, try installing the printer as a Network printer, as shown here:

Seagull Driver Wizard		×
Connect Printer The printer should be connected before con	tinuing installation.	S
How is this printer going to be attached?		
OUSB		
Network (Ethernet or WiFi)		
○ Bluetooth		
\bigcirc Other (such as Parallel or Serial)		
Instructions: 1. Connect your printer to the network. 2. Turn the printer on. 3. Press Next to continue.		^
		~
	< Back Next >	Cancel

Once the printer has installed, navigate to Devices and Printers (Windows 7) or Printers & Scanners (Windows 10) and select the printer. Open Printer Properties, select the Ports tab, and select the appropriate USB port (USB001, etc.; example below). Hit Apply, and the printer should now print to the selected USB port.

Port	Description		
COM4:	Serial Port		
FILE:	Print to File		
WSD-5	WSD Port		
WSD-9	WSD Port		
✓ US8001	Virtual printer	port for USB	
PORTP	Local Port	3
